

The University of Malta
Cottonera Resource Centre

XjenzaMania STEAM Summer School 2016

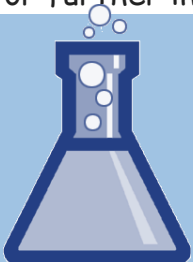

For students between the age of 9 and 13 years.

Students will participate in **experiments** in various **Sciences, Technology, Engineering, Art, Mathematics** and more. There will also be dedicated sessions on **ICT** and **Robotics**.

The Summer School will start on the **11th July up to the 19th August**, on a 3 or 4 day basis with an option to extend the attendance of the child to a 5-day basis.

There will be a number of visits to parks and places of work where science or technology are used. Various experiments, workshops and demonstrations will be held in different labs at the University of Malta. Students will also participate in Esplora workshops.
