

# Alfred Nobel

Made by : Kaine

# Who Is Alfred Nobel?

← This is Alfred Nobel

- Alfred Nobel Was born in Stockholm on October 21,1833.
- Alfred Nobel Moved to Russia at the age of 5 because his his father Immanuel Nobel lost his job and needed a new job.
- His Mother Andriette Ahlsell was jobless so she started a grocery store to help get money.
- Alfred Nobel was sent abroad to train chemical engineering, this helped with his career

# What was Alfred Nobel?

-Alfred Nobel was a Chemist and invented Dynimate and later on Gelignite

# Gelignite ?

<- This is Gelignite it might not look Explosive BUT it is stronger than Dynamite even though it is overshadowed by Dynamite but it is a used item today but it is used rareley

# Dynamite ?

<- This is Dynamite it might not be as strong or Explosive as Gelignite but dont underestimate Dynamite because it still has an Explosive passion and it is still used in the mines today

# The Conclusion

-Alfred Nobel's BIGGEST Discovery was the Nobel prize and it is given to Scientist With a big Discovery , they also get a medium sum of money

**BUT  
WAIT  
THERES  
MORE!**

# THE QUESTIONS !

# NO.1

▶ When was Alfred Nobel born and where was he born?

ANS: \_\_\_\_\_

# NO.2

▶ How old was Alfred Nobel When he moved to Russia?

ANS: \_\_\_\_\_

# NO.3

▶ Why did he move to Russia?

▶ **ANS:** \_\_\_\_\_

# NO.4

► Why did Alfred Nobel go Abroad?

ANS:

---

# NO.5

▶ What did Alfred want to be when he grew up?

▶ **ANS:** \_\_\_\_\_

# NO.6

► What did he invent?

(NAME ONE OF THE THREE THINGS I MENTIONED IN THE POWERPOINT)

**ANS:** \_\_\_\_\_

# NO.7

▶ Which is stronger Gelignite or Dynamite?

▶ **ANS:** \_\_\_\_\_

# NO.8

- ▶ How do you get the Nobel prize and what do you get with it?

▶ **ANS:** \_\_\_\_\_
